Points of Attention

On a good day

The method factors

- Camilla wants to be independent from the established ways of doing things. Camilla is able to navigate in a dynamic and unpredictable world. Camilla sees the bigger picture of things and always finds a way to move forward.
- Camilla is able to handle risky situations. She has the courage and the willpower to seize any opportunity when it arises. Camilla always puts herself in the frontline of any battle.

Performance factors

- Camilla uses her persistence, energy and goal-orientation to constantly excel in his field. Camilla strives to meet personal goals while also contributing to the efforts of the team.
- Camilla may use his or her marked independence as a powerful motivator to kick-start extra energy and determination to achieve goals. Camilla can take significant personal responsibility for the completion of tasks.

The social factors

On a bad day

- Camilla sometimes chooses the easiest solution available. This may be because she is not able to acknowledge and respect the professionalism and skills that are actually required to fulfil the tasks.
- Camilla can be very impulsive bordering on the foolhardy. Perhaps Camilla lacks the patience needed to wait for the right moment. She has a tendency to seek out excitement for excitement's sake.

- Camilla may have difficulty letting others in on his tasks. Camilla wants to do it himself. Perhaps Camilla is overly demanding of others and has difficulty accepting that others perform less than her – or differently.
- Camilla may find it difficult working with others. She goes his own way and sometimes forgets to check if everybody else is also on board. Perhaps her great desire for individual freedom causes her to lose out on the opportunity to be inspired by other people.

- Camilla likes to engage herself in other people's lives, and through this interest in others, she has gained a great understanding of people and their relationships. Camilla uses this insight in many of her professional contexts.
- Camilla often creates a good atmosphere through her open and positive behaviour. Camilla uses her warmth and positivity to cheer up the team if they have faced some difficult issues. She is always ready to help people if they have any problems or issues.
- Camilla uses open-minded conversations and the social context of the workplace to bring up issues that would not otherwise be talked about. This could be underlying disagreements and conflicts, and her willingness to discuss these things can lead to a positive exchange of views and ideas. Camilla will most likely be a positive contribution to the social life of the company.
- Camilla can talk in circles without reaching any useful conclusions. Camilla may be overly interested in the feelings of others and forget other aspects of the relationship. She has a tendency to discuss things at length without actually doing anything about it.
- Perhaps Camilla has an enormously open personality which sometimes borders on naivety. Camilla's constantly positive attitude towards her surroundings are sometimes perceived as being over the top. Camilla may be too nice at times.
- Camilla may sometimes forget to check in with other people to see if they agree with her. Camilla may take up more space than her surroundings are willing to accept. Camilla may talk too much at times.

Personal growth factors

- Camilla's energy and enthusiasm has a positive influence on her surroundings. Camilla is able to let her creativity flourish, creating great ideas and solutions, even in the most critical and blocked situations.
- Camilla comes up with thoughts and ideas that tend to be too hazy and flimsy. Camilla can become overly optimistic and she has a naive view on the world and what is possible. Her creativity can sometimes be without clear direction.
